SUMMARY

Dedicated BTech CSE undergraduate with a passion for technology and innovation. Skilled in web development, graphic design, cybersecurity, blockchain, and machine learning. Eager to explore new technologies and bring creative ideas to life. Known for problem-solving abilities and a collaborative approach to projects. Seeking opportunities to apply and expand my technical expertise in dynamic and challenging environments.

TECHNICAL SKILLS

Programming Languages: Python, C++, SQL, MATLAB, JAVA

Databases: MySQL,

Libraries & Tools: NumPy, Pandas, Git, Docker

PROJECTS

Medical Store Management System

Database Management Project

Dec 2023 – Feb 2024

Python, Django, MySQL

- Developed a comprehensive system to manage a medical store's operations
- Implemented features for tracking medicine sales, prescription data, and doctor information
- Utilized Django for the backend and MySQL for database management

Employee Management System

Web Application Development

Sep 2023 – Dec 2023

Java, Spring Boot, PostgreSQL

- Created a web application for efficient employee management and HR operations
- Implemented functionalities for employee records, attendance tracking, and payroll management
- Used Spring Boot for the backend and PostgreSQL for the database

Railway Reservation Website

Web Development Project

Jun 2023 – Aug 2023

HTML, CSS, JavaScript, Node.js, MongoDB

- Developed a dynamic website for railway reservation management
- Implemented features for ticket booking, cancellation, and user registration
- Utilized Node.js for the backend and MongoDB for database management

LANGUAGES KNOWN
